

Success Story: Red Sun Press, Boston, MA

Red Sun Press is a worker-owned printing and graphic design company founded in 1974 to support the anti-war, women's, civil rights, gay rights, union, and environmental movements. The company has developed a truly democratic workplace — every worker has a seat on the Board of Directors and shares equally in the profits — and is guided by "green" values in its operations. A \$100,000 loan from CFNE enabled Red Sun to purchase new equipment — and to continue its mission to advance social change.

*"CFNE made all the difference for us."
Red Sun Press*
